

**RESEARCH POSITION IN NEUROPATHIC PAIN**

Bioresearch company located in Barcelona (Spain) is looking for a person interested in Neuropathic Pain to join its preclinical division.

The successful candidate will be carrying out in-vivo experimentation using models of neuropathic pain and nerve and muscle biopsy.

It is essential that candidates have a degree or equivalent in life sciences and a background of in-vivo and in-vitro Biology.

Candidates with a background in pain models, electrophysiology and biopsy techniques are especially encouraged to apply.
